### Registries Stakeholder Group comment\*

The Registries Stakeholder Group (RySG) appreciates the work of the North America Global Stakeholder Engagement (GSE) team and its volunteer Advisory Panel in identifying priorities and compiling the Regional Engagement Plan for Fiscal Years 2021-2025.

In line with our [feedback](#) on ICANN's draft Operating and Financial plans earlier this year, we like to make the following general comment.

While we appreciate the clarity of the document with cited Target Outcomes and Key Performance Indicators, defining success criteria for each of them would allow for ICANN Org and the community to better assess performance and success throughout the implementation of the plan.
