

# Registries Stakeholder Group Statement

## Root Zone Label Generation Rules Version 5 (RZ-LGR-5)

Date statement submitted<sup>1</sup>: **5 May 2022**

Reference url:

<https://www.icann.org/en/public-comment/proceeding/root-zone-label-generation-rules-version-5-rz-lgr-5-24-03-2022> .

### Background<sup>2</sup>

Recently the Generation Panels (GPs) for Greek, Latin, Japanese, Korean, and Myanmar scripts have finalized their RZ-LGR proposals after Public Comment. In addition, the Armenian and Cyrillic script GPs have also finalized their proposals, which were deferred from integration into RZ-LGR by the Integration Panel (IP) because they were related to Greek and Latin scripts.

The IP has successfully evaluated the [RZ-LGR proposals](#) for these scripts and integrated the proposals, along with other scripts in the current RZ-LGR version, to develop the fifth version (RZ-LGR-5). As per the [LGR Procedure](#), RZ-LGR-5 is being released for Public Comment to gather community feedback for its finalization. Proposals for additional scripts will be integrated in future versions of RZ-LGR.

---

### Registries Stakeholder Group comment\*

#### **1. Are the individual script proposals created by the Generation Panels correctly integrated into RZ-LGR-5?**

- Yes
- No

**If 'No', please explain why.**

---

<sup>1</sup> This is a copy of the comment submitted via the ICANN Public comment platform.

<sup>2</sup> Background: intended to give a brief context for the comment and to highlight what is most relevant for RO's in the subject document – it is not a summary of the subject document.

**2. In your view, are there any required technical changes to RZ-LGR-5? Please list them with an explanation.**

-

**3. Do you have any additional observations or suggested changes?**

The RySG again thanks ICANN for developing and disseminating these LGR resources. We look forward to further discussions on developing a process for adopting Reference LGRs within the multistakeholder policy development process.

---

*Summary of Submission:*

The Registries Stakeholder Group (RySG) welcomes the opportunity to comment on this report and thanks ICANN and the Community for the continued work to develop Reference Label Generation Rules (LGRs). The development and dissemination of additional resources is appreciated and the RySG continues to see the value of Internationalized Domain Names (IDNs) to further the goals of competition and consumer choice for internet users globally.

The RySG again thanks ICANN for developing and disseminating these LGR resources. We look forward to further discussions on developing a process for adopting Reference LGRs within the multistakeholder policy development process.
