

Registries Stakeholder Group Statement

Issue: Registries Stakeholder Group Response to the Draft PTI Articles of Incorporation

Date statement submitted: July 30, 2016

Reference URL: <https://www.icann.org/public-comments/draft-pti-articles-incorporation-2016-07-01-en>

The Registry Stakeholder Group (RySG) appreciates the efforts to develop the draft PTI Articles of Incorporation, which is a critical step for the implementation of the ICG Proposal. It is our view that the sole and the most important purpose of Post Transition IANA (PTI) is to carry out the IANA functions. In addition, the language with regard to adoption, amendment and repeal of the articles is vague. We therefore make the following suggestions to improve the articles.

- Article 3, replace “for the benefit of” with “perform the IANA functions”.
- Article 13 could be rephrased as:

These Articles may only be adopted, amended, or repealed in whole or in part with the approval of at least **four of the five directors of the Corporation (as defined in the Corporation’s Bylaws)**.
