

## **gTLD Registries Stakeholder Group Statement**

**Issue:** Final Report Inter-Registrar Transfer Policy (IRTP) Part D PDP

**Date:** 7 November 2014

**Public Comment URL:** <http://gnso.icann.org/en/issues/transfers/irtp-d-final-25sep14-en.pdf>

The Registries Stakeholder Group (RySG) would like to thank the IRTP PDP Part D Working Group including ICANN policy support staff for the commitment, time and effort that was expended in the development of the recommendations put forth in this report. Several members of the RySG have been actively involved in the IRTP PDPs over the course of the last several years including the Part D WG. Via our participation we have been able to stay abreast of WG activity and provide input where applicable. Therefore, the RySG supports the recommendations provided in the Final Report Inter-Registrar Transfer Policy (IRTP) Part D PDP.

With the introduction of several changes proposed by the recommendations, the RySG is particularly supportive of the Working Group's suggestion that a future review of the entire IRTP, including the TDRP, be completed after all recommendations have been in place for twelve months in order to gauge the impact of the recommendations and to determine if further modifications should be made.
