1ST QUARTER 2025

CONTINUOUS IMPROVEMENT PROGRAM FRAMEWORK

The Registries Stakeholder Group (RySG) supports the proposed Continuous Improvement Program Framework as drafted and believes its Principles, Criteria and Indicators approach provides the necessary flexibility. While supportive of the five principles, the RySG questions whether evaluating the structures on their external accountability to ICANN community is appropriate. The RySG also supports the proposed two 3-year assessment periods.

DRAFT PTI FY26 OPERATING PLAN AND BUDGET

ICANN FY26-30 OPERATING & FINANCIAL PLAN, ICANN/IANA FY26 OP PLANS & BUDGETS

The Registries Stakeholder Group (RySG) notes that more detailed accounting would support better analysis of ICANN's service prioritization, expresses concern over the impact of eliminating the Additional Budget Request (ABR) process, and highlights that the current presentation of budget documents does not provide a clear overview of where ICANN is focusing—or not focusing—its resources. The RySG requested clarification on the intended use of SFICR resources, provided comments on the Reserve Fund, registry fee increase, and ICANN meetings, and also offered feedback on several of ICANN's strategic initiatives.
